Overview of Home-Based Learning (HBL)

At Bedok South Secondary School, we strive to provide an effective and conducive home-based learning experience for our students. With blended learning as a key feature of the schooling experience to further develop self-directed, passionate and life-long learners, HBL@BDS will be conducted every fortnight in 2022. Students will tap on the resources on the Student Learning Space(SLS) which complements with in-school activities to facilitate learning. All Secondary 1 to 3 students are also equipped with a Personal Learning Device (PLD) under the National Digital Literacy Programme (NDLP) and can tap on the various affordances provided by the PLD.

1. Information on HBL schedule and SIL instructions hosted on school website.
2. Briefing will be given to the students in Week 1 and the slides posted on this page.
3. Sem 1 HBL schedule 2023 will be up by 30 Dec 2022.

EASING INTO SECONDARY SCHOOL LIFE!

Some changes you can expect to see:

- 1. Busy Days Ahead**
- 2. New Relationships**
- 3. New Ways of Communicating**

BUSY DAYS AHEAD!

Your child will have

- ✓ Longer days in school
- ✓ More subjects, more assignments (self-directedness and not rely on teachers to inform parents!)
- ✓ More after-school activities such as Co-curricular Activity (CCA – which is compulsory at secondary level) and group project work

Tips for better time management:

- **Ask your child** to inform you about days they will return home late. Mark these days on a calendar.
- **Guide your child** in planning their schedule. This encourages them to take responsibility for organising their time, including balancing time for school, home, leisure and rest.
- **Some conversation starters:**
 - *How are you planning your time now?*
 - *What do you enjoy most about your CCA? Why?*
 - *How can I support you during this time?*

NEW RELATIONSHIPS

Your child will be

- ✓ Adjusting to new environment and routines
- ✓ Developing new friendships (spending more time with new friends, friends' opinions matter to them!)
- ✓ Entering Teenage years (experiencing changes in physical and emotional growth)

Encouraging your child to make friends:

- Friendships are a part of one's social support system. If your child does not have buddies yet, **encourage them to try talking to classmates or CCA mates.**
- **Understand how your child spends time with their friends.** Make the effort to know more about their friends and the activities they do together.
- **Some conversation starters:**
 - *Who did you go for recess/ lunch with?*
 - *Which friend/group of friends did you spend the most time with today in school?*
 - *Who are some buddies you are comfortable to talk to in school?*

NEW WAYS OF COMMUNICATING

Your child may

- ✓ Start to keep more to themselves.
- ✓ Spend more time on their devices and engage more on social media and with their friends.

MAINTAIN A POSITIVE RELATIONSHIP USING T.E.E.N

Try these easy-to-recall ways to keep the connection going strong!

Time

Consciously set aside time to spend with your child. Find regular opportunities to do this, such as at meals or taking walks together.

Expectations

Help your child discover their own goals and identity. While you may have expectations for your child, they have their own sets of strengths and interests.

Empathy

Encourage your child to share their thoughts and feelings, and listen without judgment. They will be more willing to listen knowing you are seeking to understand them.

Nurture

Seek to be a facilitator, rather than a supervisor. Let them try, discover solutions themselves, and let them experience challenges to learn.

The Ministry of Social and Family Development runs the [Positive Parenting Programme \(Triple P\)](#) to help parents strengthen bonds and stay connected with their child as they enter adolescence.
